#### CALLME Teaching – Press Release

Faculty of engineering (University of Kragujevac) organized first teaching season using contemporary CALLME educational web platform, based on novel educational methodology with integration of STE(A)M principles into biomedical engineering education.

The teaching session was held at the Faculty of Engineering Sciences with a group of students from department of computer technique and software engineering. With this session, students had the opportunity to see examples of the application of engineering methods, techniques and tools in the field of biomedicine, in order to get a sense of what the field of biomedical engineering is all about.

The training was attended by a group of students from department for computer technique and electrical engineering.
