

Erasmus+: Cooperation partnerships in higher education

Collaborative e-platform for innovation and educational enhancement in medical engineering

2022-1-RO01-KA220-HED-000087703

CALLME Training – Press Release

Faculty of engineering (University of Kragujevac) organized first training for using of contemporary CALLME educational web platform, based on novel educational methodology with integration of STE(A)M principles into biomedical engineering education.

The training topics were following:

- familiarizing the attendees with the goals of the CALLME project,
- demonstration of web platform content,
- demonstration of courses within the platform,
- demonstration of ways of using e-centers,
- discussion.

The training was attended by a group of students interested for specialization in the field of biomedical engineering.
